Beverly Park. He created beautiful ...lighting that complements the style and scale of each (project). Throughout the process, Gerald went the extra mile to make sure everyone would be happy with the end results.”

Brian Adler The Adler Development Group

“Lighting is an incredibly important element to architecture. I don’t hesitate to call ADG for the highest quality surface mounted light fixtures that are both beautiful and functional. ADG is very innovative, expanding on our ideas or altering our direction as needed to derive the best product design.”

Bill Hablinski Hablinski + Manion Architects

“It was such a pleasure working with Gerald. During the concept phase, he created beautiful sketches to convey his design ideas. During the manufacturing phase, he found alternative materials to meet our budget. And, during and after the installation phase, he went out of his way to make sure the final pieces were just right.”

Deirdre Wallace Hotelier Ambrose Hotel LEED EB Silver

“It is critical to address a home’s lighting during the framing stage for the best overall functionality. Whether or not the homeowner has an interior designer at this stage, Architectural Detail Group’s services, ranging from custom fixture design to J-box location, add value to the process. And, the homeowner ends up with higher quality lighting for a lower price.”

Gordon Gibson Gordon Gibson Construction

“Travis, We had a very good night last night. Your fixture performed at 2 FC at 30' pole height. Congrats...I had my doubts. This project is going to come down to the installed cost per fixture. There are pros and cons to both LED and induction. Our asset manger was very impressed with our demo pole we set up. It looks like to me that a 150w Induction fixture is about right. “

Bruce C. Manning Director of Engineering Able Engineering Services

“Gerald bills himself as an architect but he is truly an entrepreneur. Gerald's work in the lighting industry has set the bar very high because his designs as well as his approaches to problem solving are so unique. He's creative, he's powerful, and he is well known in this industry. But outside of his industry, he has, potentially, even more energy. I regularly call on Gerald to bounce ideas around because I always know that he'll provide great feedback, and he has great contacts to boot.”
